Sammy McCoy – District 5

June 8, 2014

Dear Skip

This is the first year that Hamilton County has used Smart Horizons. The feedback that I received from students, parents, guidance counselors, and the graduation coach was very positive. They indicated that it was easy to access and work on the courses. The support given by your staff to the students and to school level personnel was fantastic. It was very rewarding this current year for students to be able to earn a high school diploma when in the past they would have only received a certificate of completion. I'm sure the positive rewards of Smart Horizons will spread throughout our small community thus increasing the interest to participate in the program for the 2014-2015 school year.

Thank you so much for your support and for always thinking about Hamilton County!

Sincerely
